

Bozkurt Mahmut Özdemir

After starting to work as an IT Support in 2015, I started to learn UI/UX. In a year I learned UI Development and have been working as a UI Developer since 2015. I am working as a Frontend Developer for over 8 years.

EXPERIENCE

One Inside, Skopje- Frontend Developer

2023 July - 2024 April

In my role at One Inside, I worked as a Professional Software Developer specializing in the creation of UI components for SSR (Server-Side Rendering) projects, utilizing Storybook and integrating with AEM (Adobe Experience Manager).

Falcon Gaming, Skopje- Frontend Developer

2021 March - 2022 November

In Falcon Gaming, I worked as a Senior UI Developer in many web game projects which are coded with different JS Frameworks. (Angular, React, SolidJS, Svelte etc..).

CPG Gaming, Cyprus- Frontend Developer

2020 - 2021

In CPG Gaming, I worked as a Frontend Developer in many projects which are coded with ReactJS.

Lucky Gaming, Tbilisi - UI Developer

2019 - 2020

In Lucky Gaming, I worked as a UI Developer of live blackjack, roulette and some other casino game projects.

Ses Gaming, Batumi UI Developer

2018 - 2019

In Ses Gaming, I worked as a UI Developer of all the projects. Also it was one of my responsibilities to fix studio problems in the company's live casino studios.

S Yazılım, Istanbul - UI Developer, IT Support

2015 - 2018

In S Yazılım, I was working as an IT Support in the same office with the developer team. I continued to learn and work on UI Development with the help of that team.
